

Recruiting Top Talent

Hiring the top talent in the industry takes time and focus. It starts by getting the word out that your company is hiring, which often leads to sorting through stacks of resumes, many of which belong to unqualified candidates.

Once you have pre-qualified candidates, interviews need to be scheduled and conducted to further qualify them. In addition, follow-up interviews may need to be scheduled as well as checking candidates' references.

We can help! ABM Franchising Group has relationships with several recruiting companies to provide staffing solutions to assist with a variety of recruiting needs.

Advantages of working with recruiting companies include saving time, networking on a larger scale and utilizing professional expertise in finding qualified candidates.

ABM Franchising Group works with top recruiting companies to hire best in-class, screened candidates for all roles within your Linc Service and TEGG Service business. The recruiting companies we work with have been trained to understand the Linc Service and TEGG business models, and provide recruiting services for all positions, including sales, managerial staff and more.

"We had a need for two Maintenance Sales Reps for our Central New York operations. In a timely manner, the recruiter was able to source qualified candidates and schedule interviews for us. The recruiter communicated with us throughout the entire recruiting process. I believe the process was expedited because the recruiter understood the profile of a successful MSR in the Linc model!"

Bill Phillips Jr., Principal
